## Precipitate Closes Second Tranche and Completes \$2,595,000 Private Placement

*Vancouver, B.C. – July 21 2016* - Precipitate Gold Corporation (the “Company” or “Precipitate” or “PRG”) (TSXV: PRG) is pleased to announce it has received TSX Venture Exchange approval to close a total non-brokered private placement of \$2,595,000. Terms of the offering were announced by way of the Company’s news release dated July 5, 2016, followed by the Company’s announcement dated July 13, 2016 of the closing of a first tranche of \$1,249,750 (4,999,000 Units). The second and final tranche consists of the issuance of an additional 5,381,000 Units for second tranche proceeds of \$1,345,250. In total 10,380,000 Units have been issued in this private placement for total proceeds of \$2,595,000.

Precipitate's President & CEO, Jeffrey Wilson stated, "We are pleased to complete this private placement and bolster the Company’s treasury with sufficient financial strength to contemplate and complete a significant follow up drill program at the Company’s Ginger Ridge discovery zone target while continuing to attempt to advance multiple new prospective zones within the project to a drill stage through additional geochemical and geophysical surveying in the coming months. We’re thankful to the existing shareholders and new investors who participated in this offering and look forward to commencing these exciting next phases of work."

As previously announced, each Unit consists of one (1) Precipitate common share and one (1) share purchase warrant. Each warrant entitles the Unit holder to purchase one (1) additional Precipitate common share at a price of \$0.35 per share at any time within 12 months of the issuance date of the warrant. The securities issued or issuable under the offering are subject to a four-month hold period with the first tranche hold period expiring on November 14, 2016 and the second tranche hold period expiring November 22, 2016, in addition to such other restrictions as may apply under applicable securities laws in jurisdictions outside of Canada.

Proceeds of this private placement will be used to continue exploration at the Company’s Juan de Herrera Project in the Dominican Republic. The primary focus of the Company’s next stage of exploration will be the commencement of a second-phase drill campaign at the Ginger Ridge zone to test an extensive geophysical and geochemical anomaly along strike from the discovery hole that reported 18.0 metres grading 4.5 grams per tonne (‘g/t’) gold, including 5.0 metres grading 13.4 g/t gold (see PRG news release of September 24, 2014). Proceeds of the offering will also be applied to the ongoing advancement of multiple newly delineated geochemical anomalies identified elsewhere within the Company’s property, and general working capital purposes.

The Company paid an aggregate of \$97,800 and issued 391,200 Finders Warrants in connection with this offering. Each Finder's Warrant entitles the holder to acquire one common share of the Company at \$0.35 per share for 12 months of the issuance date of the Finder's Warrant.
